

GN 1/1

12 RUNNERS

Front opening isothermal container for the transport of hot, chilled and frozen meals

- Fitted with 12 constant gauge runners, ideal to carry Gastronorm pans of equal height.
- Capacity: 90 litres.
- It assures proper heat retention, limiting the risk of bacterial proliferation whilst preserving food quality and organoleptic characteristics.
- The isothermal characteristics comply with current regulations (EC Reg. 852/2004 –HACCP-) and with applicable technical standards (EN12571 and Accord AFNOR AC D40-007).
- Easily stacked and transferred, thanks to AF12 polyethylene trolley.
- Manufactured using the rotational moulding technology, allowing production of very sturdy objects without sharp edges, joints or welds, whilst assuring highly efficient temperature retention.
- Designed to be long lasting: performance remains basically unaltered when reused.
- Fully recyclable at the end of the operating life.

MANUFACTURING MATERIALS

Polyethylene	inner and outer walls of the container and of the door; food contact safe	Polyurethane	insulating material between the walls of the container and of the lid; free of CFC and HCFC
Silicone rubber	gasket	Fiberglass reinforced polyamide	hinges, clasps
Stainless steel	grip handles		

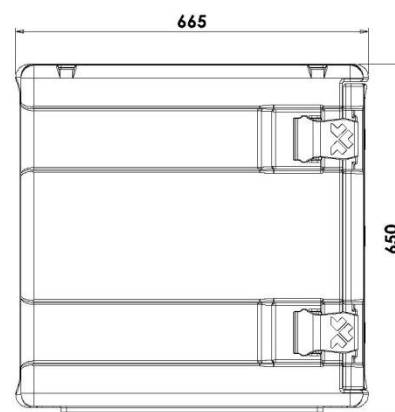

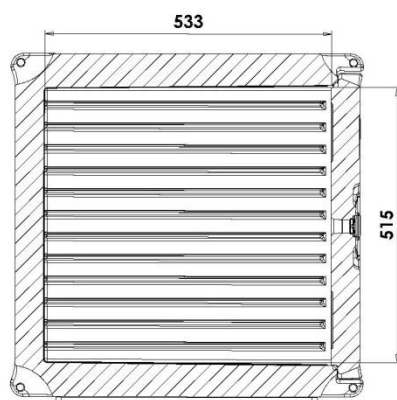

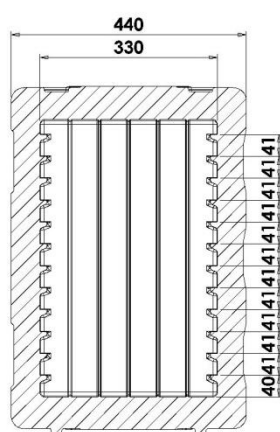

TECHNICAL CHARACTERISTICS

	<p>Fitted with 12 constant gauge runners (40 mm; see dimensional drawing).</p>		<p>It can house:</p> <ul style="list-style-type: none"> • 1 eutectic plate + 2 GN 1/1 h 200 • 4 GN 1/1 h100; • 3 GN 1/1 h150; • 6 GN 1/1 h 65.
	<p>Fitted with an easily removable door that opens up to 240°, facilitating washing.</p>		<p>Easily removable door gasket.</p>
	<p>Designed for use with Active Door, to indefinitely extend temperature retention for hot foods:</p> <ul style="list-style-type: none"> • power absorption: 200W; • 240V cable I=2 MT; • IPX4; • heating unit with stainless steel inner protection; • available in analogue and digital version. 		<p>Eutectic plates:</p> <ul style="list-style-type: none"> • hot (red) • chilled (pink) • extra-chilled (white) • frozen (blue) • extra - frozen (green) <p>to extend temperature retention time of hot, chilled and frozen meals (upon request).</p>
	<p>Stainless steel GN1/1 grid (AEA020) available upon request.</p>		<p>Stainless steel integrated grip handles.</p>
	<p>Melform clasps in shockproof material.</p>		<p>Equipped with shockproof hinges, with high resistance to stresses.</p>

TECHNICAL CHARACTERISTICS

	<p>Polyethylene handling trolley</p> <ul style="list-style-type: none"> • capacity 150 Kg; • 4 rubber coated, anti-tracking castors with PP centre; • castors dia.: 125 mm; • 2 fixed castors; • 2 swivel castors, one of which fitted with a brake. 		<p>Convenient and effective stainless steel interlocking kit.</p> <p>Available in two versions:</p> <ul style="list-style-type: none"> • with 4 closures (to secure to 2 stacked containers and their trolley) • with 2 closures (to secure a single container to its trolley).
	<p>Adjustable venting valve.</p>		<p>Featuring a built-in label holder, allowing quick identification of contents or destination.</p>
	<p>Mono-block structure, no sharp edges, joints and welds.</p>		<p>Insulated with CFC and HCFC-free polyurethane foam.</p>
	<p>Available (on request) USB data logger to record temperature data during transport.</p>	<p>°C</p>	<p>Container guaranteed for use: from -30° to +100°C.</p>
