AL300

Side opening isothermal container for the transport of hot, chilled and frozen meals

- The wide side opening eases load insertion and extraction operations.
- Capacity: 63 litres.
- It assures proper temperature retention, limiting the risk of bacterial proliferation whilst preserving food quality and organoleptic characteristics.
- The isothermal characteristics comply with current regulations (EC Reg. 852/2004 – HACCP-) and with applicable technical standards (EN 12571 and Accord AFNOR AC D40-007).
- Stackable and easily movable, thanks to the Maxidolly trolley.
- Produced with rotational moulding technology: the container and the door have a monolithic structure (no sharp corners, junctions and welds).
- Designed to be long lasting: performance remains basically unaltered when reused.
- Fully recyclable at the end of the operating life.

MANUFACTURING MATERIALS

Polyethylene	inner and outer walls of the container and of the door; food contact safe	**Polyurethane**	insulating material between the walls of the container and of the door; free of CFC and HCFC
Silicone rubber	gasket	**Fiberglass reinforced polyamide**	hinges
Stainless steel	carry handles, latches	**POM acetalic resin**	handles covers

CHARACTERISTICS

It can carry: • 2 GN 1/1 h150 + 1 eutectic plate; • 1 GN 1/1 h100 + 1 GN 1/1 h200 + 1 eutectic plate.		Fitted with an easily removable door that opens up to 240°, facilitating washing.
Eutectic plates: • hot (red) • chilled (pink) • superchilled (white) • frozen (blue) • extra frozen (green) to increase temperature retention performance over time (on request).).		Easily removable door gasket.
Stainless steel carry handles with handle cover.		Equipped with adjustable vent valve.
Melform closures in stainless steel.		Equipped with shockproof hinges, with high resistance to stresses.
Maxidolly trolley: • capacity 150 Kg; • 4 rubber coated, anti-tracking castors with PP core; • castors dia: 100 mm; • 2 fixed castors; • 2 swivel castors. Available with chrome or stainless steel handle.		USB data logger available (on request) to record temperature data during transport.
Monolithic structure, no sharp corners, junctions and welds.		Insulated with CFC and HCFC-free polyurethane foam.
°C Container guaranteed for use: **−30° to +100°C**.
