

Top opening isothermal container for the transport of hot, chilled and frozen meals

- Maximum flexibility of use. It can carry:
 - a pan GN1/1 H 200 mm and submultiples + a eutectic plate;
 - 6 ice cream pans with capacity of 4.75 litres;
 - 48 disposable foils 18x18 cm.
- Easy to handle, thanks to its small size and weight and the convenient carry handles.
- Capacity: 49 litres.
- It assures proper temperature retention, limiting the risk of bacterial proliferation whilst preserving food quality and organoleptic characteristics.
- The isothermal characteristics comply with current regulations (EC Reg. 852/2004 – HACCP-) and with applicable technical standards (EN 12571 and Accord AFNOR AC D40-007).
- Easily stacked and transferred, thanks to the Maxidolly trolley.
- Produced with rotational moulding technology: the container and the lid have a monolithic structure (no sharp corners, junctions and welds).
- Designed to be long lasting: performance remains basically unaltered when reused.
- Fully recyclable at the end of the operating life.
